

Prayer for the people of the **EAST**

We pray for people of the East.

For people in South East Asia who live in poverty and have limited choices in their livelihood. Many of them are migrant workers living and working in a foreign land. They are lonely, have limited access to resources and are separated from their families and loved ones.

Lord, give them strength, courage, love, peace and perseverance to face the everyday challenge.

May they know Your presence and love.

We pray that they can be reunited with their families and have a better life in future.
